

A detailed view of a Valtra tractor's engine compartment and front end. The image is dominated by a warm, reddish-orange color palette. The engine block, various hoses, and mechanical components are visible. The Valtra logo is printed on the side of the engine housing. The front of the tractor, including the headlight and grille, is partially visible in the lower right. A semi-transparent gear graphic is overlaid on the left side of the image.

UNDGÅ, AT OVEROPHEDNING BLIVER ET PROBLEM!

Motoren overopheder – og der skal gøres noget, inden det er for sent. Dårlig ydeevne og det, der er værre, nemlig alvorlige skader, kan være resultatet for motoren og medføre meget dyre reparationer.

Montér originale kølekomponenter og remme fra AGCO Parts – det er de eneste, Valtras ingeniører har godkendt.

AGCO Parts tilbyder et fuldt sortiment af kølekomponenter og remme, der passer til alle Valtra-maskiner uanset krav.
