AS GOOD TODAY AS THEY'VE ALWAYS BEEN

MASSEY FERGUSON

DON'T SETTLE FOR CHEAP IMITATIONS

Anyone can make a tractor that looks like a Massey Ferguson, but no one can produce one that has that unique combination of features that make it the fastest, easiest operator in its class. For ease of use and comfort we have a low effort clutch and single gear lever operation. For faster loader times there's a left hand shuttle and, for greater manoeuvrability, a 55° turning circle. For accuracy and sensitivity when loading or ploughing the MF 300 Series

has two separate hydraulic circuits producing high flow and high pressure. And for exceptional traction and performance you'll appreciate our Hydralock 4WD that actually works on all 4 wheels where others work on only 3. With over 50 years of research and development behind it, and with the best residual value on the market that's the envy of the competition, it's not surprising the MF 300 Series is the World's best selling tractor in its class.

THE NEW MEASURE OF POWER
