

FENDT

Seat covers & floor mats 2017

Seat covers and floor mats for Fendt machinery

We are delighted to present to you the current selection of our seat covers and floor mats for Fendt machinery in this brochure!

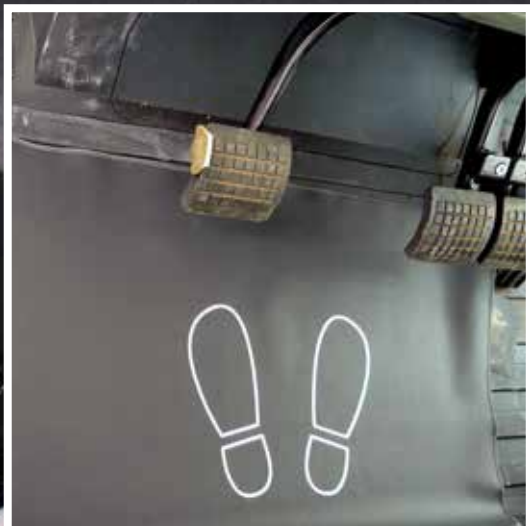

Tried and tested options and materials have been developed for the seats in our new tractor series. On the following pages, you will find seat covers for the latest Grammer seats as well as for the entirely new Dual Motion seat, as found in the Fendt 1000 vario.

For more nostalgic customers, we also offer a Dieselross seat cover. This fits the most commonly installed Grammer seats and can therefore be used in most tractor series. The Dieselross logo is stitched onto the headrest in red and white. A real eye-catcher for all Fendt fans!

For price-conscious customers we offer a universal seat cover – new in the range – that you simply pull over the seat. It can be used universally and is fitted in just one movement with no need to remove the seat cushions from the seat.

Inside you will find photographs of all the seat covers that we offer, plus an application table for floor mats, helping you to select the products that you need.

Fendt seat covers and floor mats are available from your local Fendt dealer.

Seat covers and floor mats for Fendt machinery

Our seat covers

Standard seat cover for all seats without seat climate control

Two different fabrics have been combined here and the different colouration gives the seat cover a sporty look. The headrest features a high-quality stitched Fendt logo. These seat covers are also available with integrated heating pads.

Leatherette seat cover

Leatherette is both tough and easy to clean. Simply wipe with a damp cloth! The headrest features a high-quality stitched logo.

Seat cover for all "evolution active" seats – seats with seat climate control

Similar in design to the standard seat cover, however it incorporates the special breathe-active material for the seat and backrest to accommodate the seat climate control of "evolution active" seats. The headrest features a high-quality stitched logo.

Alcantara seat covers

Alcantara seat covers offer your seats extra elegance. The high-quality leather appearance and gorgeous feel are perfect for those who enjoy a touch of luxury.

Dieselross seat cover – for our more nostalgic customers!

The headrest and side areas of the backrest and seat cushion are made of hard-wearing artificial leather, and the main sections are made of polyester velveteen. This seat cover has the same fit as our most popular seat cover with a recess for seat tilt adjustment.

Universal seat cover

For fast protection of the entire seat. Simply pull it over the seat and headrest. With stylish Fendt stitching in silver at headrest height. Material: 100% hard-wearing polyester mixture; machine-washable at 40°C. Colour: green

Our floor mats

The floor area in a tractor is worth protecting. All Fendt floor mats are tailor-made to fit the floor area of the cabs perfectly. The stylish appliqué Fendt logo adds the smart Fendt look to the high-quality material.

For the most common cab types we offer floor mats in both velour and rubber, and all Fendt floor mats are easy to clean with a pressure washer.

Rubber floor mat

The floor mat for uncompromising protection of the cab floor.

"Deluxe" floor mat

"Deluxe" floor mats are manufactured from high-quality tufted velour. These floor mats also give an air of luxury with their precision tailoring. Edges are bound with full black fabric trim.

Velour floor mat

The tough needle-punched fabric protects the floor of the cab and adds a touch of comfort.

Our workshop protective covers

For particularly messy work we offer a range of protective covers to help protect the cleanliness of your cab
